AVE

Dear Residents,

We are excited to safely accommodate more residents in the fitness center and are increasing occupancy **from 2 to 4 users**, effective today, Thursday, April 8, 2021, in line with the county's increase in capacity.

We will no longer be requiring the Skedda booking tool to reserve your workout, but all residents MUST adhere to the following guidelines, as mandated by local government and health officials and outlined by the CDC, when using the fitness center to ensure a safe and enjoyable experience for all.

- Maintain 6' of social distance between yourself and others whom you do not share a residence
- **Wear a facial covering at all times when using the space**
- Some equipment will be unavailable for your use to ensure social distancing – do not use equipment marked as "not available"
- **Limit your workout to 90 minutes to ensure this amenity can be safely enjoyed by all**
- While we will be performing comprehensive deep cleaning and disinfecting of this space at designated times during the day, we can not guarantee our team will clean and disinfect every piece of equipment between users, so we kindly ask you to use the cleaning supplies provided to clean down any equipment before and after use
- Do not bring food into the fitness center – personal water bottles are permitted
- Keep personal belongings to a minimum and clean up all items when you leave and dispose of any waste in our contact-free receptacles
- Do not use this amenity if you are exhibiting any symptoms of COVID-19, as outlined on the CDC website
- Follow CDC best practices for hand hygiene and respiratory etiquette such as washing your hands often and covering your mouth when coughing and sneezing

Thank you for your continued cooperation as your safety and well-being is on No.1 priority.

Sincerely,

The AVE Team
